Dear Hiring Manager / Admissions Committee,

My name is Lexceyra Melchor Garcia, and I am currently a senior at Coalinga High School, where I am expected to graduate in June 2026. I am writing to introduce myself and express my interest in opportunities that will allow me to grow academically and professionally, particularly in the healthcare field. I am especially interested in pursuing a career as a medical coding specialist or cardiologist, and I am eager to gain experience that will help me achieve these goals.

I am a motivated and hardworking student with a strong commitment to responsibility and teamwork. I am bilingual in English and Spanish, which allows me to communicate effectively with a wide range of people. Through my experiences, I have developed strong organizational, communication, and customer service skills. I take pride in being reliable, detail-oriented, and maintaining a positive attitude in all that I do.

My academic and extracurricular experiences have helped shape my interests and abilities. I have taken part in dual enrollment courses at West Hills College Coalinga while completing my high school education. I am actively involved in school programs such as CTCL Club and U-Crew, where I have worked collaboratively with others and contributed to my school community. In addition, I earned first place in Web Page Design at the Career Skills Challenge, demonstrating my creativity and technical skills.

I have also gained valuable hands-on experience through my role as an Office Student Assistant at Coalinga High School, where I greet visitors, manage front desk responsibilities, and maintain organized records. This position has strengthened my professionalism and ability to work in fast-paced environments. Additionally, I volunteered at the Boys & Girls Club, where I worked with children and families to create a safe and welcoming environment. These experiences have helped me develop patience, leadership, and a strong work ethic.

Looking ahead, I plan to attend college and pursue a degree in the medical field, with a focus on cardiology or medical coding. My goal is to build a career where I can make a positive impact on others by contributing to healthcare and helping people receive the care they need. I am committed to continuing my education and developing the skills necessary to succeed in my chosen career path.

Thank you for taking the time to consider my application. I would greatly appreciate the opportunity to further discuss how my skills, experiences, and goals align with your program or organization. I look forward to any future opportunities to contribute and grow.

Sincerely,
Lexceyra Melchor Garcia
